

Unit: 5.7 – Concept Maps

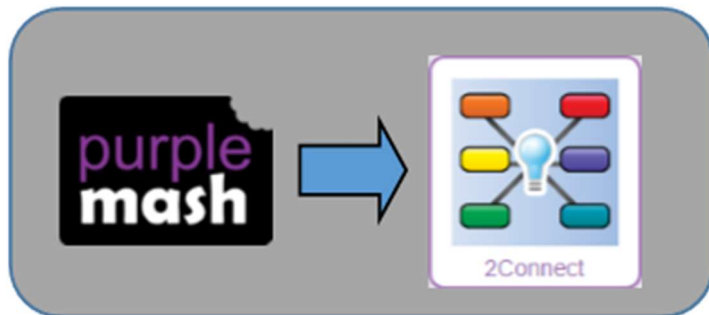

Key Learning

- To understand the need for visual representation when generating and discussing complex ideas.
- To understand and use the correct vocabulary when creating a concept map.
- To create a concept map.
- To understand how a concept map can be used to retell stories and present information.
- To create a collaborative concept map and present this to an audience.

Key Vocabulary

- Audience** - People giving attention to something.
- Collaboratively** - Something that is produced by, or involves, two or more parties working together.
- Concept** – An idea.
- Concept Map** - A tool for organising and representing knowledge. They form a web of ideas which are all interconnected.
- Connection** - A relationship or link between two nodes or ideas.
- Idea** - An opinion or belief.
- Node** – A way to represent concepts or ideas.
- Thought** - An idea or opinion produced by thinking or occurring suddenly in the mind.
- Visual** - A picture, piece of film or display used to illustrate or accompany something.

Key Questions

A concept map is a pictorial way of showing relationships between concepts and ideas. A concept map allows you to show information, pictures and links to support an idea or concept.

On a concept map ideas or concepts are organised into nodes which are linked together with lines to show how the concepts and ideas link together.

A concept map in 2Connect allows many users to contribute to the map which means that ideas or concepts can be quickly amended or additional information provided.
