

# Halloween Pumpkin Monster Mask

## You will need:

- Monster Mask: Pumpkin template
- Elastic or string
- A pair of scissors or craft knife
- A stapler or hole punch
- A glue-stick or PVA glue

**1** First, cut around the outside of the pumpkin mask template.

---

**2** Next, cut out the two eye holes, using your pair of scissors or craft knife. Ask an adult to help you with the first cut.

---

**3** After that, cut the solid lines around the white, numbered (1-5) flaps. Do NOT cut the dashed guidelines.

---

## Now, begin to glue, making your mask '3-dimensional'!

---

**4** First, apply a small amount of glue to the white tab numbered 1.

---

**5** Then, tuck the tab under the mask, up to the dashed guideline. Hold for at least 10 seconds or until the glue has dried.

---

**6** Repeat steps 4 and 5, working your way around the next four tabs on the mask. Leave to dry.

---

# Halloween Pumpkin Monster Mask

**Attach the elastic or string to hold your pumpkin mask onto your head!**

---

7

First, ask a friend to help you measure how much string or elastic you need around your head.

---

8

Attach the string or elastic to the mask. You may use a hole punch and knot the ends of the string/elastic to secure them. Alternatively, you could staple the ends onto the mask.

---

**Enjoy your pumpkin mask!**
