- 1) Here are the ages of two children:

Magda
1095 days

Henry
37 months

Henry is the eldest child.

Do you agree with this statement? Explain your answer.

- 2) Here are the durations of four different films

Clowning Around	Dance School
1 hour and 33 minutes	90 minutes
Super Sonic	Ghost House
$1\frac{3}{4}$ hours	1 hour and 40 minutes

- a) Noah finds the total running time of all four films by converting all the times to minutes and using column addition.

		9	3
		9	0
	1	4	5
+	1	0	0
	4	2	8
	2		

 minutes

Is Noah correct or incorrect? Explain your answer.

- b) Write two true statements and one false statement about the durations of the films. Can your partner identify the incorrect statement?

- 1) Oliver is taking part in a sponsored dance-a-thon for charity.

Three of Oliver's friends agree to sponsor him the following amounts:

Poppy

Liam

Lan

£1.50 for every
10 minutes

£1.00 for every
300 seconds

£2.50 for every
quarter of an
hour

- a) How much will each friend give Oliver after 30 minutes of dancing?
- b) How much money will Oliver earn in total after 135 minutes of dancing?
- c) Choose your own time that Oliver could have danced for and calculate how much money he would have raised for charity.
