

Definitely A SUPERHAIRO!

Check out the before and after photo to see the difference. This was taken last Saturday, and demonstrates the 'length' our pupil went to, to support other in need. As a school community, we are so very proud! Thank you again for your donations towards a worthy cause!

Newsletter Friday, 27th January

Industrial Strike Action

School will be open to all pupils on Wednesday 1st February 2023. All pupils are expected to attend. Thank you.

Merit Winners

Well done to our merit winners. They have demonstrated 'Positivity' and have also had 100% attendance.

Book Donations

A huge thank you to everyone who has sent books in to school. You have been very generous indeed, and we are wowed by the children who have handed in some of their much-loved books and stories so that other will benefit, whilst spreading the joy of reading!

Aspire2Be

Our Year 5 and Year 6 children took part in a wonderful career-led learning event this morning. They joined schools nationally in a careers' webinar hosted by the NHS. Our children got to meet NHS workers, learn about the many different career paths that the NHS offers and question the guest speakers about what their roles entail.

We hope some aspiration seeds were planted and our children enjoyed considering what their futures could hold.

National Lego Day

The colorful plastic bricks known as Lego have entertained children (and adults) around the world for nearly 70 years. Lego is used to make toy buildings, vehicles, creatures, machines, anything imaginable — and they can be taken apart and put back together as often as you'd like. That means endless creative play. National Lego Day, on January 28, celebrates these incredibly ingenious and enriching toys. Many of our children wish to share some of their creations, so, if you wish, please upload to eSchools an image you may have and we will share these in school.

Please also upload any Science Selfies, have so that they get to Miss Pearson.

Maths Learning Walk

Yesterday morning, the senior leadership team, Mrs Martin (our Mathematics Lead) and Mr Kitching (our Chair of Governors), had a Mathematics themed learning walk around the school. This was another amazing opportunity to see the fantastic pupils and staff in action. Behaviour was exemplary in every class and year group and the mathematic knowledge and application by the children was a massive wow factor of the morning! The fluency, reasoning and problem solving on show demonstrated just how skilled out pupils are – magic! Well done everyone!

Viewing Age Ratings

Some of our younger children have been telling their friends about movies they have been watching outside of school. Some of these movies have an age rating of 15 and 18 years, and when talked about, this has understandably scared, upset and worried some of our pupils. We ask for your support and understanding in monitoring content viewed on tv and online. Thank you in advance.

Coffee Morning

Many thanks to those able to attend this week's coffee morning on Wednesday. Each morning held so far has seen more of you able to attend and it is a great chance for the community to come together. We hope to see you at the next one!
